

1. Take a top that fits you comfortably.
2. Lay it out on a flat surface with the front of the top facing you.
3. Measure the distance in inches between points A & B.

4. Make a note of the measurement.
5. Double that figure to give you the size of that top.
6. Use that measurement opposed to "S/M/L/XL" to help you match you the size you require.

PLEASE NOTE THAT NO TWO ITEMS OF APPAREL ARE THE EXACT SHAPE OR SIZE. FOR THIS REASON WE STRONGLY RECOMMEND THAT YOU USE THE INFORMATION AS GUIDE ONLY.
